CATALYST

An evidence-informed, collaborative professional learning resource for teacher leaders and other leaders working within and across schools

Extended Bibliography

Louise Stoll, Carol Taylor,
Karen Spence-Thomas and Chris Brown

These references either informed our work on the project and in developing *Catalyst*, or are ones we have subsequently come across that are currently informing our research and development efforts. We have organised them according to the four research questions (Research Findings cards), professional learning and development (Professional Learning cards), and a more general focus on leading evidence-informed practice. There is some overlap where a reference covers more than one topic. We will be updating the references from time to time.
